

About Transformations... the Vision

Transformations is the Greater Delaware Valley's premier Holistic Learning Center with the vision to help individuals, families and communities actualize their highest potential while contributing to the greater good.

Based in Voorhees New Jersey, our mission is to provide professional coaching services, groups and workshops to individuals and organizations to integrate and bring balance to every aspect of their life - physically, emotionally, intellectually and spiritually.

What We Believe

We believe there are multiple pathways to holistic growth and our services are tailored to best meet the needs of our clients. Different people need different types of support and knowledge at different parts of their life journey, and our objective is to have both the structure and the flexibility to accomplish that.

Our focus is on the positive, the possible, the genius in each of us.

At Transformations, you can focus on one or more areas of your life such as **Inner Peace, Relationships, Spirituality, Career or Finances**. We offer individual coaching and opportunities to participate in groups or workshops where you can work on increasing balance and optimize yourself in all areas.

We will always be focused on valuing the individuality and sacredness of each and every client.

Who We Are

Comprised of entrepreneurs, psychiatrists, business and life coaches, spiritual leaders, among other highly professional and holistically developed individuals, the Transformations faculty is a diverse body of knowledge that utilizes success principles and laws of attraction to support the goals and visions of those with whom they work.

On faculty, we also have:

- Artists
- Business Leaders
- Community Leaders
- Holistic Health Counselors
- Psychologists/Social Workers
- Teachers
- Professors
- Scientists
- Religious/Spiritual Leaders
